

13.02.2019

To: Federația Națională a Crescătorilor de Porumbei din România
For: CNS - Departamentul Tehnic/IT

We hereby inform you that in order to transmit online arrivals and home evaluation, in the case of TOPIGEON V8 timers, fanciers must update their systems to the latest version of the software.

Topigeon V8 – minimum software version V8.70

As a result of your request for generating the secret basketing code, we inform you that all TOPIGEON systems generate secret basketing code, which is written in the memory of the sensors and checked upon arrival from the race.
